QUALITY INSTRUMENTATION ... GUARANTEED

## Looking for more information?

Visit us on the web at <http://www.artisan-scientific.com> for more information:

- Price Quotations
- Drivers
- Technical Specifications, Manuals and Documentation

## Artisan Scientific is Your Source for Quality New and Certified-Used/Pre-owned Equipment

- Tens of Thousands of In-Stock Items
- Hundreds of Manufacturers Supported
- Fast Shipping and Delivery
- Leasing / Monthly Rentals
- Equipment Demos
- Consignment

### Service Center Repairs

Experienced Engineers and Technicians on staff in our State-of-the-art Full-Service In-House Service Center Facility

### InstraView™ Remote Inspection

Remotely inspect equipment before purchasing with our Innovative InstraView™ website at <http://www.instraview.com>

### We buy used equipment! We also offer credit for Buy-Backs and Trade-Ins

Sell your excess, underutilized, and idle used equipment. Contact one of our Customer Service Representatives today!

UTxx  
UTxx

### UTxx - Digital ultrasonic electronic

■ The UTxx module is the successor to the earlier analog UT electronic NIM generation and the digital-analog hybrid 20.00 equipment.

A special mathematical technique patented by NUTRONIK has made it possible to dramatically improve the resolution of time of flight and amplitude.

The capabilities of this system exceed those of all previous generations. The central element of NUTRONIK's UTxx electronic ultrasonic testing system consists of a channel-oriented digital electronic testing system.

It is parallel, multi-channel and modular oriented and achieves high test throughputs at reasonable cost levels in automated test systems.

Customized solutions for integrating the UTxx into customer's existing electronics or handling e.g.

PLC's or multi-channel multiplexer version as well as separated preamplifier/transmitter versions are available. Further specifications for the NUTRONIK - UTxx in brief:

- Application-specific firmware
- Standardized 19" module system with VXI bus with practically no limitation to the total number of channels
- Can be combined with any VXI function modules
- Windows™ User interface for easier handling and reduction of training costs
- Detachable local electronics module
