3U Resolver to Digital Converter Board

Part Number: 603482

Features & Options

The ACC-58E is a 3U-size rack-mounted board that provides 2 or 4 channel 16-bit interface for resolver position feedback devices. Ordering Option-1 provides a total of four resolver inputs through this accessory board. This accessory connects to the CPU board through the backplane expansion port.

Options:

- If ordered with the 3A0 part number prefix (part # 3A0-603482-10x), the ACC-58E comes with a front panel attached to the board, but without top or bottom panels. This configuration is appropriate for mounting in an open 3U rack.
- If ordered with the 3R0 part number prefix (part # 3R0-603482-10x), the ACC-58E comes with a front panel attached to the board, and top and bottom panels attached (or that can be attached) to one of the Option P 3U-pack frames. This configuration is appropriate for mounting in the enclosed 3U pack frame supplied by Delta Tau.
- Option-1: Two additional 16-bit resolver to digital converters for a total of four on-board resolver to digital converters

Required accessories for this product

This board must be associated with either a Turbo PMAC2-3U CPU board or a MACRO Interface/CPU board.

Suggested accessories for this product

Delta Tau provides a rich selection of 3U components either in a UMAC packaged configuration or a stack configuration.
