Features and Options
Ordering Information

Part Number: 603777

Features and Options

This accessory allows the UMAC Turbo system to communicate with other external devices using a field bus communication protocol like DeviceNet, Profibus, ControlNet and CanOpen as required. This board can act as a master or a slave in the field bus connections. The specific option must be ordered to specify the type of field bus communications required. **This accessory is intended for UMAC Turbo use only.**

Options:

- If ordered with the 3Ax part number prefix, this accessory comes with a front panel attached to the board, but no top or bottom panels. This configuration is appropriate for mounting in an open 3U rack.
- If ordered with the 3Rx part number prefix, this accessory comes with a front panel attached to the board, and top and bottom panels attached (or that can be attached) to one of the Option-P 3U-rack frames. This configuration is appropriate for mounting in the enclosed 3U rack frame supplied by Delta Tau.
