Instructions

Panasonic.

Before attempting to connect or operate this product, please read these instructions completely.

PREFACE

A 12X power servo control zoom lens WV-LZ14/12A is used for a color camera WV-3260/BAF or a system camera WV-D5000.

INSTALLATION

Disconnect the lens cable from the camera.

Remove the 8X auto focus power servo control zoom lens from the color camera WV-3260/BAF or the body cap from the system camera WV-D5000 by turning it clockwise while pressing the lens release button on the camera.

Mount the 12X power servo control zoom lens WV-LZ14/12A by turning it counterclockwise after matching the red mounting position indicator. Connect the lens connector to the camera.

Note : The zooming is controlled by the power zoom control on the grip shoulder or the camera remote controller WV-CR12.
