Servo Motor Cable Part Number Change

Effective immediately, TQ feedback cable part numbers 71-015018-10 and 71-015018-25 have been replaced by 71-015886-10 and 71-015886-25 respectively.

This change simply adds two additional wires for connecting to the brake of motors that feature this "B" option (e.g. N0703FR-NTQB). For motors that do not have a brake, the wires can be left disconnected.

Also, effective immediately, the brake wires for the TQ motors will be connected to pins R and S in the feedback connector. (Connections were formerly made to pins S and T.)

All other wiring remains the same. For reference, the color code for this cable is,

Designation	MS14-18 Pin #	Wire Color
Vcc	H	Red
Ground	G	Black
CH A+	A	White
CH A-	B	Yellow
CH B+	C	Green
CH B-	D	Blue
Index+	E	Orange
Index-	F	Brown
Brake	R	Red/Blue
Brake	S	Red/Blue

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
