The Series PSS 3100 module rack has 7 slots available. It consists of a Bus for Fail-safe and a Bus for standard modules. There are a maximum of 5 slots for Fail-safe modules and 2 slots for standard modules. The first slot is always occupied by the power unit PSS1 PS and the second slot by a central processing unit of the Series PSS1 CPU.

1. Fail-safe Bus
2. Standard Bus
3. Earth connection
