Products

PMI Linear Motion Systems

▼ Linear Guideway Request Form

▼ Introduction for Each Series
- MSA Series Heavy Load Type
- MSB Series Compact Type
- MSG Series Wide Rail Type
- MSC.MSD Series

Features

The ball chain type linear guideway, SME series, equip with the patent of ball chain design can make the movement

Miniature Type
- MSH Series
Cross Linear Guideway
- MSR Series
Full Roller Type
- SMR Series
Roller Chain Type
- SME Series
Ball Chain Type
- SMH Series
Ball Chain Type Cross
Linear Guideway

▼ Options

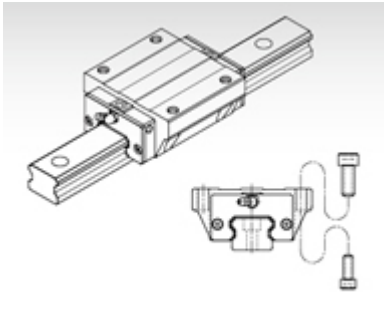

smooth and stability, especially suit for the requests of high speed, high accuracy.

Characteristics

- The Optimization Design of Four Directional Load
- Self Alignment Capability
- Ball Chain Design, Smooth Movement
- Low Noise, Good Lubricant Eff ect

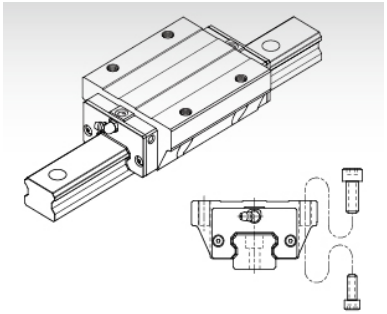

Dimension (clickable)

SME-EA

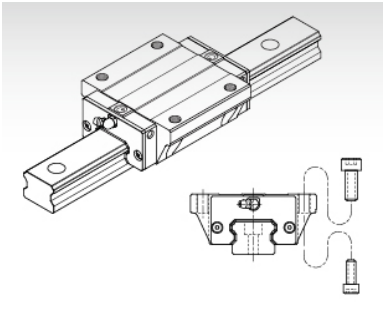

This type offers the installation either from top or bottom side of carriage.

SME-LEA

All dimensions are same as SME-EA except the length is longer, which makes it more rigid.

SME-EB

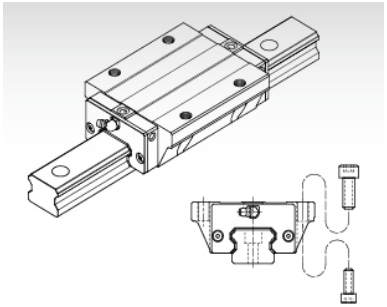

All dimensions are same as SME-EA except the mounting hole dimensions of carriage are different and the height is lower, which do not change the basic loading rating.

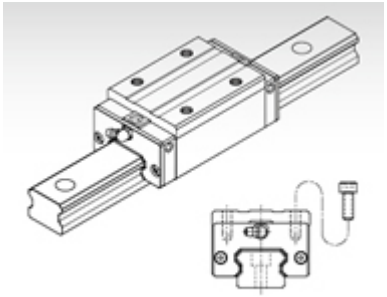

SME-LEB

SME-SA

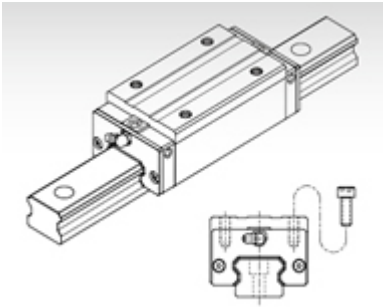

SME-LSA

All dimensions are same as SME-EB except the length is longer, which makes it more rigid.

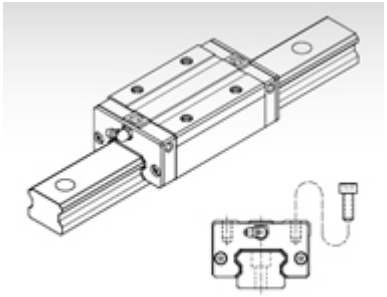

Square type with smaller width and can be installed from top side of carriage.

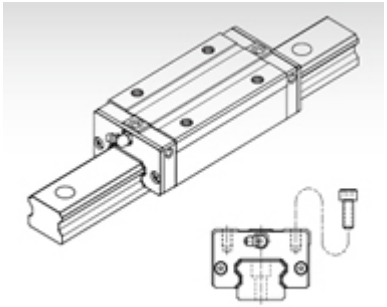

All dimensions are same as SME-SA except the length is longer, which makes it more rigid.

SME-SB/SV

All dimensions are same as SME-SA except the mounting hole dimensions of carriage are different and the height is lower, which do not change the basic loading rating.

SME-LSB/LSV

All dimensions are same as SME-SB and SME-SV except the length is longer, which makes it more rigid.
