ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

Allen-Bradley

Product Profile

VersaView™ 1200W and 1500W Industrial Workstations

Bulletin 6180W

With the Allen-Bradley VersaView 1200W and 1500W industrial workstations, users now can run visual interface, maintenance, control, and basic information applications all from one machine. Use the 1200W or 1500W computer with its integrated keypad to control machinery or a process; display information necessary to repair, maintain, or start up a process; and gather basic production information for making informed business decisions.

The VersaView 1200W and 1500W industrial workstations are available in standard or performance models. The standard model provides the computing power necessary for most visual interface, maintenance, or basic information applications. However, if more computing power is needed, use a performance model.

Advantages

Like all VersaView products, the VersaView 1200W and 1500W industrial workstations include the following tools and services to provide reliable computing power on the factory floor:

- Application interoperability
- Technology change management
- Rugged yet cost-effective platforms for today's demanding factory environments
- Factory system recovery CD
- Unit level immediate exchange program
- Complete package for immediate startup
- Global sales and support
- Quick delivery

System Components	
A	36 (1200W)/32 (1500W) function keys with software utility that allows function key programming; 1200W function keys are I/O capable via optional card
B	Full Alpha Input
C	Numeric Keypad
D	Parallel Port
E	Serial Port
F	2 USB Ports
G	10/100 M Ethernet Port
H	Audio Port
I	VGA – Video Display Cable
