The FC-40 Plus Feeder Cube is a single controller, housed in a Nema-1 general purpose enclosure. It has been redesigned to now include the features of the FC-40-PLC Plus Series including line voltage compensation and alternate methods of remotely controlling the output. Input voltage is 120VAC, 50/60 Hz. Fused for 15 amps.

Rodix Vibratory Feeder Controls

FC-40 Plus — 121-000-0880

FC-40 Plus Series "All Purpose" Feeder Cube® Controllers

- FC-40 Plus Series Typical Applications
  - Vibratory bowls
  - Storage hoppers
  - Linear inline feeders
- Most models are UL and cUL listed (File EI83233)
- Provides a soft-start adjustment so a feeder bowl, inline track drive or storage hopper can cycle on gently.
- Maximum output power level adjustment allows for the maximum output of the control to be preset
- Output is switch selectable from 120 pulses per second (UN-rectified or full-wave) to 60 pulses per second (rectified or half-wave)
- Line voltage compensation feature automatically adjusts the output of the controller to compensate for incoming voltage fluctuations
- Easily integrates with PLC's for remote control access
- For additional features, please refer to the Advanced Application Note
