

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

CPCI-200B-BP

Four slot IndustryPack Carrier for 6U CompactPCI

I/O & Communications

Features

- Four IndustryPack slots on a 6U CompactPCI board
- I/O via CompactPCI backplane J4 and J5 connectors
- Switchable 8/32 MHz IndustryPack clock for each slot
- Four LEDs for IndustryPack access and four for power monitors on PCB
- Filtered power rails and reset-table fuses
- Interrupt acknowledge space for retrieving IndustryPack vectors
- Reduced memory-map versions available by special order
- 5.0V or 3.3V signaling

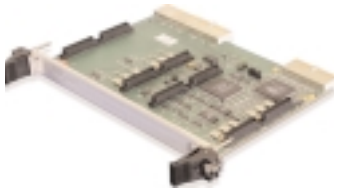

SBS' CPCI-200B-BP IndustryPack carrier board provides four IndustryPack slots on a 6U CompactPCI card. The CPCI-200B-BP provides IndustryPack I/O via the CompactPCI J4 and J5 connectors. Rear panel transition modules, BIO-3 and BIO-4, are available from SBS.

The CPCI-200B-BP provides an IndustryPack clock that is software-selectable between 8 and 32 MHz on a per-slot basis. The standard 8 MB memory space is available for each IndustryPack site. High-speed 32-bit PCI host address space permits desireable linear mapping and fixed address partitions of memory, I/O and ID spaces for each IndustryPack module.

The CPCI-200B-BP uses a PLX PCI9080 controller as the PCI bus interface chip and Altera FPGA logic that provides fully configurable PCI interrupt vector space. The PCI bus interface automatically handles 3.3V or 5.0V signaling levels.

The CPCI-200B-BP meets the PCI specification and conforms to the VITA-4 IndustryPack Logic Interface Specification. This guarantees compatibility with a wide range of IndustryPacks.

CPCI-200B-BP

Specifications

Form Factor
- 6U CompactPCI

PCI
- PCI Specification, Rev. 2.1

PCI Controller
- PLX PCI9080

IndustryPack Slots
- Four slots
- Supports four single-wide or two double-wide IndustryPack

IndustryPack Clock
- 8 MHz per IndustryPack slot

IndustryPack Features Supported
- I/O space, ID space, memory space, interrupt acknowledge cycles

IndustryPack Memory Size
- 8 MB per IndustryPack

Carrier Board Memory Space
- 64 MB

IndustryPack Interrupts Supported
- Int0* and Int1* for each slot

PCI Bus Interrupts Generated
- INTA# only

I/O Access
- Via CompactPCI J4 and J5

Indicators
- One green LED per slot for CPU access on PCB
- One amber LED per slot for power monitor on PCB

Fuses
- Resettable 2.5A @ 20˚ C for 5 VDC
- Resettable 2.0A @ 20˚ C for +/-12 VDC

Dimensions
- 160 mm x 233 mm

Weight
- 0.32 kg (0.71 lb)

Power Requirements
- +5V VDC, 250 mA typ
- +12V DC, 10 mA typ
- -12V DC, 10 mA typ
- Extra power required for IndustryPack modules

Temperature
- Operating: 0˚ to 70˚ C
- Storage: -40˚ to 85˚ C

Relative Humidity
- 5% to 95% non-condensing

Model Number	Configuration
CPCI-200B-BP	4 slot 6U CompactPCI IndustryPack carrier with rear I/O

Associated Product	Description
BIO-3	Rear transition module with ribbon headers
BIO-4	Rear transition module for IEEE 1011.1 back panel
C-HD50M-HD50M	Six foot cable HD50 male to HD50 male
IP-TERM-HD50	50-pin screw terminal block with HD50 female

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
