Touch and View USB M2

MICRO SCOPE

Your skin is changing everyday.

Features

- Low-priced microscope allowing you to check your skin at home.
- You can store data of your skin in a file as you like.
  If you are hooked up to the Internet, you can obtain remote counseling service as well.

Touch and View USB MICRO SCOPE M2

This low-priced microscope allows you conduct skin checks at home.

You can view the state of your skin on the display of your personal computer
and monitor its changes daily.
Priced affordably, this microscope makes home skin checks possible.

You can store data of your skin in a file as you like.

You can now store data of your skin in the form of a file.
By storing data on a regular basis, you can trace changes in skin condition quite distinctly.
Moreover, you can also get an accurate grasp of the effects of cosmetics and other factors.

Remote counseling possible through the Internet

The ability to transmit image data has made remote counseling possible.
Through this counseling service, you will be able to retain your customers or even boost the number of them, thereby increasing the range of marketing activities.
