▸ **TYPE 4X ENCLOSED STARTERS.** Type XLS starters are UL/CSA Listed starters enclosed in type 4X U.L. Listed enclosures. Type 4X enclosures are designed for outdoor/hose down/ dust tight applications and are non-metal corrosion resistant.

DESCRIPTION

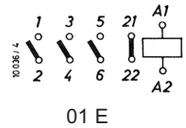

Minicontactor Type LS07, designed for motor control, and distinct *small* size. As such, they are recommended for space saving in industrial control, electronic control and disribution systems.

The **Type LS07 Minicontactor** has been proven dependable on both three phase and single phase systems when controlling motor loads. LS07 is particularly recommended for metal and woodworking machines, for textile and construction machinery and other commercial and industrial applications. Other loads for minicontactors are resistive, such as heating and lighting circuits, or inductive loads represented by solenoid valves and clutch couplings.
