

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

984/A120 Technical Specifications

Power Requirements

Integral Power Supply	
Input	20 - 30 Vdc @ 1A Full Load
Output	5 Vdc @ 2.5A to the I/O Bus
P120 AC Power Supply Module	
Input	95 - 270 Vac, 47/63 Hz
Output	24 Vdc @ 1A
P120 DC Power Supply Module	
Input	102…150 Vdc
Output	24 Vdc @ 1.5A

Environmental

Temperature, Operating	0 - 60°C
Humidity, Operating	0 - 95% non-condensing
Temperature, Storage	– 40 - +85°C, IEC 68-2-14
Humidity, Storage	0 - 95% non-condensing
Altitude	15,000 feet (4500 m)
Shock	30 G's, 11 msec, 3 pulses/axis
Vibration	10 - 57 Hz: 0.075 mm DA 57 - 150 Hz: 1 g

Dimensions

Height	5.6 in (142 mm)
Width	8.4 in (213 mm)
Depth	5 in (127 mm)
Weight	1.0-1.2 lb (455-540g)
Agency Approvals	UL, CSA, FM, CE

Specially designed for space efficiency

Although the 984/A120 Compact offers the performance of a larger PLC, it is specifically designed for the micro-to-small application. Small in size, its packaging includes the CPU, built-in power supply, and up to 256 I/O in less than 1.5 square feet of panel space. With a depth of less than 5.5 inches, it will fit comfortably in an 8 inch deep panel enclosure.

The primary subrack houses the controller with built-in 24 Vdc power supply and an additional three slots for I/O modules. If required, an optional 120 Vac power converter can occupy one slot. Three additional expansion subracks can be connected, providing up to 18 slots for I/O modules. Subracks can be mounted side-by-side, with no additional hardware. Or they can be mounted in two tiers by using a single bus extension cable. DIN rail mounting makes for a fast, secure installation.

A full complement of discrete I/O modules is available in densities of 4, 8, or 16 points. Analog I/O, high speed counter/position detection modules, and single axis servo motion control modules are also available.

* Includes memory configuration and I/O Traffic Cop. (888 words minimum – 1k words maximum)

** Includes analog in/out at 16 bits each plus discrete in/out at one bit each.

*** Comm port 1 supports XMIT Block, temporary Modbus Master

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
