SenarioTek

Engineering RF and Microwave Solutions to Fit Your Application

e-trak

Powered by CodeOne™ Test Solutions

Remote in-line calibration correction

- *Broadband (up to 32 GHz)*
- *TVAC compatible (-10 to +60 deg C)*
- *LAN interface, LXI compatible*
- *Automatic RF path*
- *Phase stability at Ka Band similar to current C Band*

e-trak dramatically reduces the errors caused by repeatability of switches, drift of components over temperature and time, and changes in cables due to temperature and movement. Below is an example of a filter test with 50 feet of test cable. The cable was moved between each test. **e-trak** reduced the errors caused by the cable movement.
