Keypads for inverters

Keypads for the MOVITRAC® B and MOVIDRIVE® B inverters make your job easier, whether you are working on startup, diagnostics or status displays. Your quick, easy and convenient on-site alternative to the PC!

Would you like to be able to send commands to the relevant drive components directly at the machine or system, with no need to start up a notepad or to access the central controller?
Well, you can with SEW-EURODRIVE. Our drive electronics have optional keypads that plug into the MOVITRAC® B or MOVIDRIVE® inverters. They add real flexibility when using the operator terminal. The basic FBG11B keypad complies to IP20 degree of protection and the DBG11B keypad complies to IP40. IP65 housings are also available for mounting into a control cabinet or closer to the motor.
These keypads are indispensable for quick, simple and direct operation and monitoring of process sequences on-site. See for yourself how quickly and conveniently you can view your process values and status displays; set, change or transfer parameters; secure data and rectify error messages.

Get in touch with us.

Your benefits

— No PC needed -
use our inverters while working directly at your machine or system.
— Simple startup
thanks to process values and status displays, as well as simple parameter settings.
— Fast diagnostic process
with fast information retrieval from the fault memory. And faults are also quickly rectified via error reset.

Keypad DBG60B

for MOVITRAC® B and MOVIDRIVE® B

functions

- Display process values and status
- Status displays of the digital inputs and outputs
- Error memory and error reset queries
- Option to display and set the operating parameters and service parameters
- Data backup and transfer of parameter sets to other MOVITRAC® B or MOVIDRIVE® units.
- Easy-to-use startup menu for VFC mode with the MOVIDRIVE® B
- Manual control of MOVITRAC® B and MOVIDRIVE® B as well as the decentralized MOVIMOT®, gearmotor with integrated frequency inverter.

Features

- Illuminated plain text display: choice of up to 7 languages with MOVITRAC® B and over 12 languages with MOVIDRIVE® B
- Keypad with 21 keys
- Choice of short or long menu; for MOVIDRIVE® B choice between user menu, detailed parameter menu and startup menu in VFC mode.
- Can be plugged onto the inverters (during operation)
- Can be connected via extension cable DKG60B (5 m [16.4 ft])
- Enclosure IP40 (EN 60529)
