EVI-D100 Series

The EVI-D100/D100P models are ideal for applications such as videoconferencing, distance learning and corporate training, surveillance, sports, concerts and internet communications such as webcasting.

Communication Colour Video Cameras

EVI-D100P (PAL)
EVI-D100 (NTSC)

The Sony EVI-D100 (NTSC) and EVI-D100P (PAL) video cameras are a great choice for any application that requires a high-quality colour video camera with the flexibility of remote pan/tilt/zoom operation, all in a compact easy-to-use package.

These high quality CCD cameras combine a high-speed, quiet pan/tilt with a wide angle of view and 40x zoom. Auto focus and automatic exposure control with back light compensation are fast and stable and can easily cope with difficult lighting conditions. The EVI-D100/D100P models are ideal for applications such as videoconferencing, distance learning and corporate training, surveillance, sports, concerts and internet communications such as webcasting. Additional advantages are provided by easy to use presets, daisy-chaining capability and various digital picture effects.

Features

High Speed, Wide Range Pan/Tilt
The camera moves to a designated position quickly and immediately with a high pan/tilt speed.
Max. pan speed: 300 degrees/s
(range ± 100 degrees)

(10x Optical + 4x Digital)
The fast and stable auto focus zoom lens reaches impressive 40x zoom ratio.

Built-in Conversion Lens for Wide Angle View (65 degrees)
The EVI-D100/D100P incorporates a newly developed wide-angle lens for wide field of view image capturing, making it ideal for use in small-sized rooms.

Six-position Presets with Battery Back-up
An integral back-up battery stores presets of pan/tilt/zoom, focus position, AE mode and White Balance mode, even when the unit is powered off.
