Series 170 and 176 Subminiature Position Transducers Announced

Extending the capabilities of the Series 173, 174, and 175 product lines, SpaceAge Control has announced the availability of the Series 170 and 176 position transducers. Developed from customer requests for longer ranges and smaller sizes, the Series 170 and 176 products share the same high-performance characteristics of the Series 173, 174, and 175 while offering smaller size (Series 170) and longer range (Series 176).

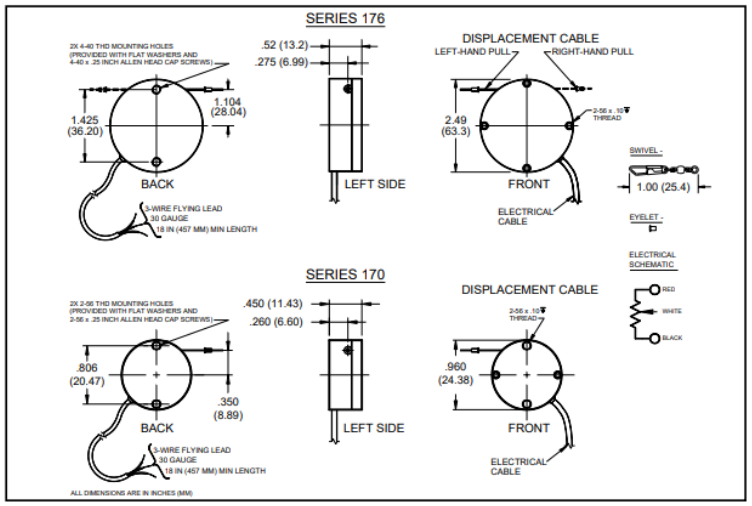

Initial applications of the products include UAV flight control position monitoring, medical diagnostics equipment, and vehicle testing.

The products are available immediately. For more information, please contact us or visit our Web site at :
