

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

Adtech AX/4000 Broadband Test System

The Adtech AX/4000 Broadband Test System is simply the most powerful system ever developed for testing the performance and Quality of Service of broadband technologies.

Engineered for maximum flexibility and scalability, the AX/4000 is a modular, multi-port system capable of testing multiple transmission technologies such as ATM, IP, Frame Relay and Ethernet simultaneously at speeds up to 10 Gbps.

Field-programmable test modules and over 35 interchangeable interfaces are available to support nearly every conceivable transmission technology and connection type. Software options enable the AX/4000 to test conformance with the latest industry standards as well as performance under the most extreme conditions and demands.

Designed with input from the world's leading network service providers and telecommunications equipment manufacturers, the AX/4000 provides the fastest, most flexible broadband testing solution available anywhere.

AX/4000 3G Test Products

AX/4000 Access Test Products

Adtech AX/4000 Broadband Test System supports highly scalable PPPoX testing, up to 32K subscriber sessions (PPPoX) per port and 256K sessions per chassis at a rate of 500 sessions per second per port. AX/4000 supports both PPPoEoA and PPPoA on the same ATM interface and PPPoE on Ethernet.

AX/4000 Metro Test Products

Spirent offers the most comprehensive routing solution available today to allow you to quickly and reliably assess the integrity and scalability of your networking equipment ensuring that it will perform as required once deployed. The Adtech AX/4000 Broadband Test System offers an incredible breadth of products for router testing of Metro networks devices.

AX/4000 QoS Products

Spirent Communications AX/4000 QoS applications include solutions spanning the range of legacy protocols (ATM), newer QoS technologies (MPLS) and standardized methodologies for characterizing switch/router performance, such as RFC 2544.

AX/4000 Routing Products

Spirent offers the most comprehensive routing solution available today to allow you to quickly and reliably assess the integrity and scalability of your networking equipment ensuring that it will perform as required once deployed. The Adtech AX/4000 Broadband Test System offers an incredible breadth of products for router testing of enterprise, metro/edge and core networks devices.

Spirent Conformance Test Suites

Adtech AX/4000 conformance suites let you uncover protocol implementation problems early in the development cycle with discrete, automatic test cases that reduce the number of variables to troubleshoot and debug. AX/4000 offers the broadest protocol coverage in the industry: ATM, Frame Relay, optical, and routing (PLS RSVP-TE, MPLS LDP, MPLS CR-LDP, RIP V1, RIP V2, RIPng, IPv6, OSPF, BGP, BGP-4, IS-IS).

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
