ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

TIP830 8 Channel 12 (16) bit Simultaneous Sampling A/D

Application Information

The TIP830 family are IndustryPack® compatible modules with 8 independent channels of high resolution 12 bit or 16 bit analog-to-digital conversion. Each channel consists of a Sample and Hold and a 12 bit or 16 bit A/D converter. The maximum time for sample and convert is 25µs for all channels. The full-scale input range is +/-10V.

A start-of-conversion is initiated by software command or via the trigger I/O pin. All eight channels of the TIP830 sample and convert simultaneous.

By connecting the trigger I/O pins of several modules it is possible to expand the simultaneous sample and convert feature to several TIP830 modules.

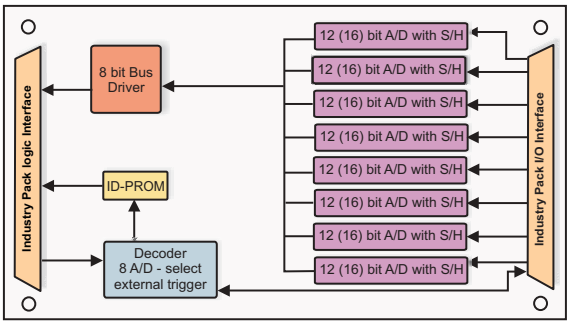

For First-Time-Buyers the engineering documentation TIP830-ED is recommended. The engineering documentation includes TIP830-DOC, schematics and data sheets.

Driver support (TIP830-SW-xx) is available for different operating systems.

Technical Information

- Interface according to IndustryPack specification
- Identification-PROM supports auto-configuration
- Single Size IndustryPack
- Eight 12 bit (16 bit) A/D converter (ADS7806/7)
  - Complete 12 bit (16 bit) sampling A/D converter with internal reference
  - +/- 10 V input, impedance 45 KW
  - Integral linearity error: +/- 0.9LSB (+/- 3LSB)
  - Differential linearity error: +/- 0.9LSB (+3/-2LSB)
  - No missing codes: 12 bits (15 bits)
  - 25 µs maximum for sample and convert
- Factory calibration of gain and offset for each channel, correction parameters stored in ID-PROM
- Sample and convert simultaneous for all 8 channels, expandable to other TIP830 by external trigger I/O pin

Order Information

TIP830-10	Eight 12 bit A/D channels, single-ended simultaneous sampling and converting
TIP830-20	Eight 16 bit A/D channels, single-ended simultaneous sampling and converting
TIP830-DOC	User Documentation
TIP830-ED	Engineering Documentation, includes TIP830-DOC
TIP830-SW-12	OS-9 Software Support
TIP830-SW-32	pSOS Software Support
TIP830-SW-42	VxWorks Software Support
TIP830-SW-62	Windows NT 4.0 Software Support
TIP830-SW-72	LynxOS Software Support
TIP830-SW-82	LiNUX Software Support
TIP830-SW-92	QNX 4 Software Support
TIP830-SW-95	QNX 6 Software Support

Artisan Scientific - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisan-scientific.com

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.

Learn more!

Visit us at **artisantg.com** for more info on price quotes, drivers, technical specifications, manuals, and documentation.
