## Forma 3950 Series Reach-In CO2 Incubators

### Product Detail

The Forma Reach-In CO2 Incubator series is an excellent choice for large volume cell culture. These durable cabinets feature true laminar airflow through side plenums for extremely tight temperature and RH uniformity. The high capacity water reservoir is externally heated for long life, can be filled automatically or manually, and features 3 user-definable humidification level settings. Sophisticated microprocessor controls offer constant display of temperature and CO2, as well as an alphanumeric message center for ease of set-up and programming. Many other useful features, such as stainless steel interior, left and right access ports, duplex convenience outlet, casters, and leveling feet are standard on these units.

**Key Accessories:**
Shelves
Built-In Gas Guards
Factory-Installed Data Outputs
Gas Regulators
