Statistic Function Display

Power Versus Time Display

Sensor Information

The console has a built-in RS-232 interface and comes with a comprehensive software package. It contains a complete set of drivers (LabVIEW™, LabWINDOWS™/CVI) and the application software with Graphical User Interface (GUI). The application software enables full remote control of the unit and allows the user to view, acquire, and store the measurement data on the PC.

Interface Cable USB to Serial

The cable allows electronic to access the PM100 and PM30 power meters via a USB interface. The cable has a sub-D connector that includes the USB to serial converter on one end and a USB connector on the other.
