

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

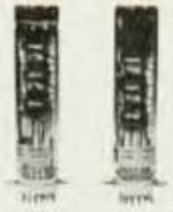

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

COMPACT PHOTOMULTIPLIERS
FOR OEM AND R&D

9924 RbCs Bia. 9798 S-20

9826 Bia. 9882 S-20

The new RbCs 9924 and the S-20 9798 are 30mm dia. PMTs designed for high cathode sensitivity and low dark current characteristics in a tube of small dimensions. These have been proven ideal for OEM and R&D applications in which cost and space limitations are a factor. The 9924 provides for a 20 to 50% improvement in blue and green sensitivity. The 9798 with S-20 cathode and UV glass window provides a spectral range of 200 to 850nm. Both are available from stock and are mechanically and electrically interchangeable with other 30mm PMTs such as the 9824, 9524, R268, R374, and C31059.

The 19mm dia. types are the 9826 and 9882 with bialkali and S-20 cathodes respectively. The compact size allows for simplified OEM and R&D packaging, and the fast linear focussed dynode structures and high gain of the 9826 makes it useful for high energy physics experiments (hodoscopes, etc.).

The QL-30 family of PMT housings provides the ultimate in simplicity and versatility when operating any 19mm or 30mm PMT. RFI shielding, mounting flanges, and custom voltage divider networks are routinely supplied. OEM and R&D inquiries are invited.
