TP-LINK®

Single USB2.0 Port MFP and Storage Server

TL-PS310U

Share printing/ faxing/scanning/copying of your Multifunction Printer	Share and manage USB storage device	Compatible with a wide range of MFP/printer/hard driver/ scanner/card reader

*(For specific compatibility list, please visit our website: http://www.tp-link.com/products/ps.asp)

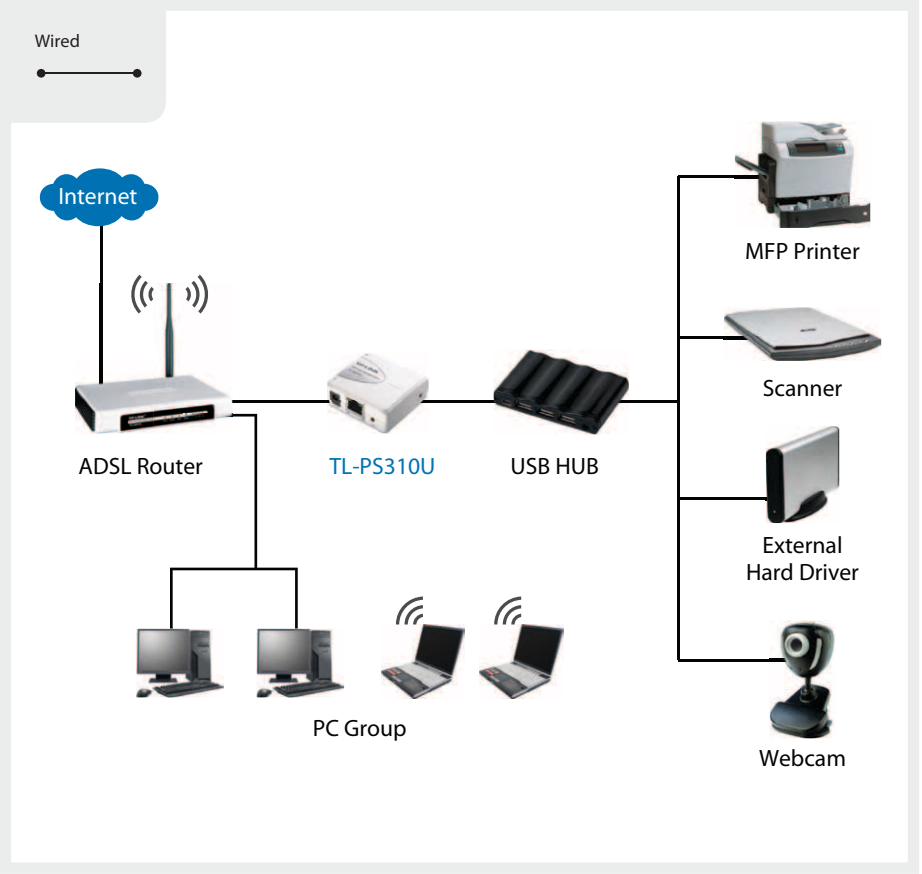

Description:

The TP-Link USB Storage and MFP Print Server TL-PS310U is a device to share your USB devices, such as Multifunction Printer (MFP), external hard drive, flash drive, scanner or memory card reader, throughout your home or office network. With the support of MFP, you are able to share the printing/faxing/scanning/copying of your MFP across the network, making full use of it while eliminating the need of a dedicated PC server. You can also share your video/photo/document in your USB storage device through the network by attaching it to the TL-PS310U. Furthermore, the TL-PS310U can share up to 4 USB devices simultaneously with a USB hub extension. Just after several clicks following the clear instruction of the setup wizard, you can easily have your USB devices networked and shared.

Specifications:
