S36 Rugged MIL

S36 CPCI

S36 VME64X

Use Case	Tracewell Systems offers the highly adaptable S36 for air-, sea- and ground-based applications. The MIL-STD-461 design uses unique shielding methods to support up to 21 boards. Optional advanced welded laminate construction provides a very light, highly rigid platform. Also supports several standard backplane architectures, or, if needed, full custom architectures.
Features	Output power ranging from 400-2000 W, wide range AC (47-440Hz) or 28/48/300 VDC input High capacity, forced air-cooling for up to 100W/slot; optional conduction or fluid cooled configurations can be supported Up to 21 slots, 3U or 6U, in VME64x, VXS, CompactPCI, full custom or mixed architecture Remote monitoring, VFD/LCD display options and control interfaces for RS-232/485, Ethernet or IPMI MIL-STD 461, 704, and 810 environments

Artisan Technology Group is an independent supplier of quality pre-owned equipment
