The Tracewell S24 for VME is a unique test and development platform for VMEbus applications. The system features compact size and accessibility in a versatile bench-top system that is ideal for software and board-level development, manufacturing and test. Small size and simple, reliable operation make Tracewell S24 for VME perfect for use in the field or the lab.

Tracewell S24 for VME, although very compact, is a fully featured VME platform providing space for up to 7 VME boards. Its small size and weight allow it to be operated just about anywhere. A rigid steel cardcage and formed aluminum housing add strength without excessive weight. The flush front cardcage and open back provide unrestricted access for probes and cabling. Cooling is provided by a 93 cfm fan that pressurizes a plenum area below the cardcage for better airflow distribution. A 250W power supply provides ample power and includes power factor correction and wide-range AC input. A 5 or 7-slot backplane is available supporting 32 and 64-bit protocol, auto-configuration, and feature SMD/press-fit assembly for speed and reliability. Other standard conveniences include side mounting for peripherals and pull-down feet to improve working angle. Options include a front storage bay for (2) 3.5" devices, handles, and a removable rear cover.

The Tracewell S24 for VME provides flexibility and performance for both new and existing VMEbus requirements.

Ordering Information

Part Number	Description
524-6000-F01-00	Chassis with 5 slot VME backplane, 250W power supply
524-6000-F02-00	Chassis with 7 slot VME backplane, 250W power supply
524-6000-F10-00	Chassis with 5 slot VME backplane, 250W power supply, storage bay
Accessories	
106-1001-009-01	Non-shielded single-slot filler panel, 6U X 4T; installs in vacant slots
121-6012-099-01	Subrack air block, single slot; snaps into a vacant slot to block airflow
124-6000-C00-00	Removable rear cover assembly, installs with (2) 6-32 thumbscrews
070-9930-000-0P	Shroud, 96 pin
070-9931-000-0P	Shroud latch

Artisan Technology Group is an independent supplier of quality pre-owned equipment
