Acutime 2000 Synchronization Kit

Reliable and Precise Timing for Your Network

Acutime 2000 Synchronization Kit

Trimble's Acutime™ 2000 Synchronization Kit is an NTP reference clock, offering global time synchronization for any digital system. The Acutime 2000 system synchronizes the clocks of your network by harnessing the reliability and accuracy of the GPS satellite system.

The Synchronization Kit includes all the components necessary to transform your server into a stratum one time source.

KIT CONTENTS

Acutime 2000 GPS Smart Antenna
A combined GPS antenna & receiver to provide ease of operation and easy integration.

Synchronization Interface Module (SIM)
I/O and power interface to the GPS Smart Antenna.

Power Supply
(24 V, 100-250 VAC)

AC Power Cord

100-Foot Interface Cable

Serial Interface Cable
(RS-232, DB-9)

Timing Receiver Monitor (on CD-ROM)
Installation and configuration instructions for the Acutime 2000 smart antenna, software and utilities.

Additional software, including upgrade and detailed documentation are available on the Trimble website at: http://www.trimble.com/products/pdf/acusync.pdf
