U.S.Robotics®

Model 3090
Dial-up
56K* OEM PCI
Software Faxmodem

Connectivity

Features and Benefits

Includes V.92 and V.90 ITU standard technology.

Feature-rich affordability	Get a U.S. Robotics V.92 modem at an easily affordable price. The U.S. Robotics 56K PCI Faxmodem utilizes the processing power of your computer to make sending/checking e-mail and surfing the Web easy.
Send e-mail and attachments faster	V.92 lets you send attachments up to 50% faster!
Get online faster	Quick Connect lets you establish a connection faster, so your customers spend less time dialing up.
Software upgradable	Online upgradability and downloadable software ensure that this modem will continue to meet your changing needs.

- Designed and manufactured specifically for personal computer manufacturers
- Supplied in 50-unit bulk packs; drivers available for download from the U.S. Robotics OEM partners' web site
- Complies with the ITU V.92 and V.90 standards
- Conforms to FCC Part 15 and Part 68 CSA, and UL 1950

56K* OEM PCI Software Faxmodem

Simple, fast, and affordable online access.

Dial-up

V.92 makes 56K flexible, U.S. Robotics makes it affordable. U.S. Robotics has been building the world's best modems for over 25 years, and now we're bringing you the latest in modem technology.

The V.92 standard gives you the features to get the most out of a dial-up connection: send e-mail and attachments faster, get online quicker, and even take incoming phone calls without losing your Internet connection.

Now you can get a U.S. Robotics 56K* OEM PCI Software Faxmodem with V.92 technology at an easily affordable price.

Standards and Protocols Supported

- V.92 56K ITU standard
- V.90 56K ITU standard

- One year limited manufacturer warranty from date of purchase

For details, see www.usr.com

Model Number

- 3090 – 56K OEM PCI Software Faxmodem

www.usr.com

* Capable of receiving at up to 56 Kbps and sending at up to 48 Kbps (or 31.2 Kbps with V.90 server). Due to FCC regulations on power output, receiving speeds are limited to 53 Kbps. Actual speeds may vary. V.92 and V.90 features require compatible phone service and support from your Internet Service Provider (ISP). U.S. Robotics modems featuring V.92 enhancements are backward compatible and will negotiate the highest possible speed when connecting to an ISP.

† For connection to the Public Switched Telephone Network (PSTN).
