UDT INSTRUMENTS

THE STANDARD OF MEASUREMENT

Portable Photometer

SYSTEM S371R

Autoranging Handheld Power Meter

The System S371 is a rugged, microprocessor-controlled handheld optometer that puts the capabilities of a benchtop model in the palm of your hand. It accepts all UDT Instruments photometric sensor heads. One meter can be programmed for 13 selectable calibration settings.

Controls for the S371 are limited to seven buttons for added convenience: select proper calibrations, choose between linear and logarithmic measurements, set ranges manually or automatically, zero the unit to compensate for ambient light, and set a reference level as a standard for comparison measurements. Values are displayed on a 16-character LCD screen.

System S371 Specifications

Controls	On/Off, Calibration/Select, Log/Linear, Zero/Logarithmic Reference, Auto/Manual, Step Range
Display	16-character, Dot Matrix LCD
Electrical Accuracy	±1% and ±2 counts
