products and solutions

WYKO OPTICAL PROFILERS

New! Wyko NT 8000 Optical Profiler

The Wyko NT8000 is simply the most capable optical profiler available, for rapid measurement of step heights, roughness and surface topography. Veeco's eighth generation optical profiler provides non-contact 3D measurement from 0.1 nm to 8 millimeters, with sub-nanometer resolution. A unique, internal reference signal enables self-calibrating accuracy over the entire scan range. Combined with 100um/sec scan speed and full automation, the NT8000 is the tool of choice for demanding research and production applications in materials, metals, MEMS, semiconductors, optics and more.

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
