

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

VIAVI Solutions

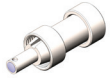

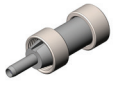

Selection Guide

Fiber Inspection Tips and Adapters

VIAVI Solutions offers a wide variety of fiber inspection tips and adapters to help you Inspect Before You Connect™ and work clean. Browse through this comprehensive guide of inspection tips and adapters, then order what you need via www.viavisolutions.com or by calling 1–844-Go VIAVI (+1–844–468–4284).

Barrel Assemblies (BAP)

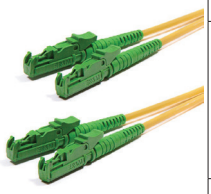

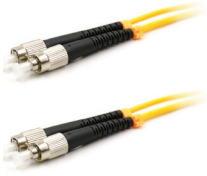

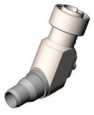

Some of our FBPT Series tips require a BAP, or barrel assembly. A BAP contains a common set of optics that can be used with multiple hollow tips. This approach makes many common tips more economical. Some tips contain their own optics and do not require a BAP. Typical examples of tips containing optics are long-reach tips and tips with a 60-degree angle for hard-to-reach areas; RibbonDrive™ tips, such as those used for MPO connectors, are another example. The following pages indicate which tips require a BAP and which do not.

Catalog Part Number	Segment	Product Image	Description
FBPP-BAP1	Barrel Assemblies		Standard Barrel Assembly for FBP Series and FiberChek Probes
FBPP-BAP2	Barrel Assemblies		Extended Barrel Assembly for FBP Series and FiberChek Probes
FBPP-BAP3	Barrel Assemblies		Narrow Barrel Assembly for FBP Series and FiberChek Probes

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

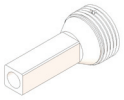

FBPT Probe Tips

The FBPT Series probe tips attach to the FiberChek™ Probe, FBP-P5000i, and FBP-P5 Fiber Inspection Probes. They can also be connected to the FiberChek Sidewinder for use with simplex inspection. FBPT tips are primarily used for bulkhead inspection, but patch cord tips are also available for certain connectors.

Catalog Part Number	Segment	Product Image	Description	Connector Image	Barrel Assembly Required
FBPT-E2000	E2000		E2000 Bulkhead Tip for PC and APC, 4 Degree Angle		No

FMA Adapters

FMA Series adapters are designed for patch cord inspection. They connect to the FVDi Bench-top Microscope, and can also be attached to any VIAVI probe microscope by using the FBPT-UFMA, together with an FBPP-BAP1 adapter. FMA Series adapters are all male-threaded, but can be connected to any VIAVI microscope requiring a female-threaded adapter by using the FMAE-CA2 coupling adapter.

FMAE Adapters

FMAE Series adapters are used for patch cord inspection. They attach to the Patch Cord Microscope on the SmartClass Fiber Series, as well as the FVAi Bench-top Microscope. They can also be connected to any VIAVI probe microscope by using the FBPT-UFMAE, together with an FBPP-BAP1 adapter. FMAE Series adapters are all female-threaded.

FMAX Adapters

FMAX adapters are the next-generation female-threaded adapters. Like the FMAE Series, the FMAX Series connects to the Patch Cord Microscope on the SmartClass Fiber Series, as well as the FVAi Bench-top Microscope. They can also be connected to any VIAVI probe microscope by using the FBPT-UFMAE, together with an FBPP-BAP1 adapter. FMAX Series adapters are all female-threaded.
