#24 Olympus Type Microscope Mount Set

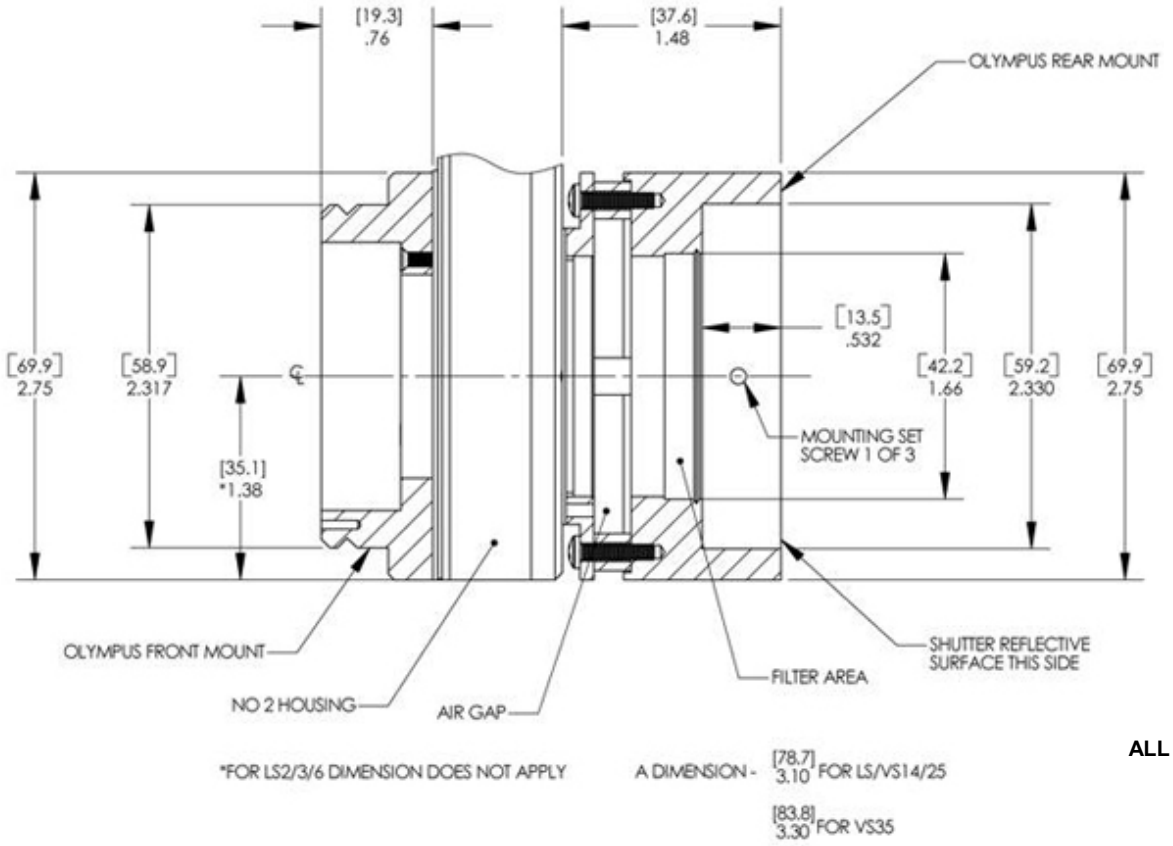

Overview

- The #24 mount set is the larger diameter counterpart to the #23 Olympus mount set. The #24 mount set adapts specific shutter housing types to an IX or BX type Olympus microscope.
- No modification to the microscope should be necessary. A filter area is provided to allow the user to install an optical filter between the light source and the shutter housing.
- The housed versions of the VS, LS, and XRS series shutters, as well as the CS25 and CS35, can be configured with this mount set type. A clearance cutoff (1.38in/35.1mm from aperture center) is provided with the VS series only.
