VideoPlex Plus Decoders

VideoPlex Plus series of decoders plays back MPEG-1 and MPEG-2 streams at up to 15 Mbps to composite monitors. VideoPlex Plus is designed for point of sale, point of information, video-on-demand and video wall applications.

Product Features

High Quality MPEG-2 Playback

VideoPlex Plus delivers playback of professional MPEG-1 and MPEG-2 streams at up to 15 Mbps, replacing laser disks and linear tapes such as SVHS and Betacam with superb digital video. VideoPlex Plus also features genlock input with video pass-thru for ad insertion and other professional video applications. It supports Windows 95 and Windows NT. It comes in PCI single slot layouts with Composite (BNC) and S-Video (mini-DIN)) output connectors. VideoPlex Plus decodes MPEG streams to NTSC-M, NTSC 4.43, PAL-M, and PAL B/G output formats with balanced and unbalanced stereo audio for professional sound and video.

The Most Advanced Tools

The Real Time Decoder (RTD) Software Development Kit (SDK) provides a complete set of software tools for developing digital video playback applications. Developers and OEMs can join Progression, Optibase's Developers Support Program, and enjoy a wide range of software components designed for state of the art applications. By joining Progression, you'll benefit from such extras as C/C++, SDKs, Visual Basic enhancements, DirectShow Filters, source code for demo applications, conversion utilities and setup tools.

The Best Choice for System Integration and OEM

VideoPlex Plus is the ideal solution for Point-of-Sale, Point-of-Information, video-on-demand, ad insertion and video wall applications. It is designed for integration into professional video markets that require the most reliable MPEG playback technology.

- Composite and S-Video outputs
- Balanced and unbalanced audio outputs
- Genlock input
- MPEG audio
- MPEG-1 System, MPEG-2 Program and Transport streams
- Windows 95 and Windows NT.4
- DirectShow 2.0 in Pull and Push modes
- Full CCIR-601 resolution
