VWR Water- Jacketed Incubators 3000 Series

- Large 16-Gallon Water Jacket
- Microprocessor Temperature Control
- Stainless Steel Interior and Shelves
- Over-Temperature Protection
- VWR 24-Month Warranty

Water jacket offers many benefits

3000 Series Water Jacket Incubators provide excellent temperature uniformity. Both the water jacket and the heated door design eliminate condensation on the walls and glass door. Copper strip in the water jacket inhibits bacteria growth.

Additional features

The microprocessor temperature control allows digital temperature set and read-out to 0.1˚C. Incubators are available as a single chamber unit or over/under unit and feature a full-length inner glass door for visual checks without disturbing incubation. Through-wall access port allows roller apparatus, rocker or stirrer operation. Adjustable leveling feet compensate for uneven surfaces. All 3000 Series Incubators are supplied with a humidity pan.

Note: Use only distilled water.

Specifications:
Temperature Range: 5° above ambient to 70°C
Uniformity: ±0.2° at 37°C

Cat. No.	Model	Cap. cu. ft.	Electrical	Interior, W x D x H, in.	Exterior, W x D x H, in.	No. of Shelves	Ship Wt., lbs.	Each
