# VWRbrand* Dry Block Heaters

PREVIOUS NEXT

- **Designed for Multi-Purpose Use**
- **Exceptional Temperature Uniformity and Accuracy**
- **Holds 28 Interchangeable, Modular Heating Blocks**
- **Accuracy: Analog, ±0.5°C; Digital, ±0.2°C**
- **Temperature Range: Ambient to 150°C (Analog), Ambient to 120°C (Digital) in 0.1°C Increments**
- **Convenient Front-Mounted Controls**
- **Minimum Bench Space**
- **VWR 24-Month Warranty**

## VWRbrand* Dry Block Heaters

These multi-purpose units are ideal for incubation and activation of cultures, enzyme reactions, blood urea nitrogen determinations, melting/boiling points, and a wide variety of other laboratory procedures.

VWRbrand high wattage, constant-temperature heat blocks are economical, versatile, and compact. Each of the five models accepts separate interchangeable blocks accommodating various tube sizes — from 0.25 ml micro to 50 mm. Each block has a thermometer well. This efficient heater features close tube-and-block contact with a low density design for exceptional temperature uniformity.

Adjustable high and low thermostats provide reproducible and accurate temperature control with a stability of ±2°C.

UL and C-UL listed.

**Caution: To avoid possible electrical hazard, do not (under any circumstances) fill well or block opening with water or other fluids. Unit is designed as a dry bath/incubator.**

**Ordering Information:** 120V units supplied with 3-wire cord and plug. 220V units supplied with 3-wire cord with stripped ends. Modular blocks must be ordered separately.
