VWR® Traceable® Flip-Stick™ Thermometer

New flip-to-open design is easy to use. Stainless-steel probe may be positioned at any angle. Fold-up, protected probe permits carrying on the wrist strap or in a pocket. Big-digit, ¾-inch-high display may be viewed at a glance. Shockproof in drop tests up to 5 feet.

Reading is updated every second

Features include °F/°C key, minimum and maximum memory readings over any time period, and a HOLD key (freezes the display to capture a temperature). Wide range covers 99 percent of routine temperature measurements: –58 to 572°F and –50 to 300°C. Resolution is 0.1° from –20 to 200° (1° outside this range). Accuracy is ±1°C between –20 and 100°C. Ultra™ model accuracy is ±0.3°C at tested points.

Traceable to NIST for accuracy

To assure accuracy an individually serial-numbered Traceable® Certificate is provided from an ISO 17025 calibration laboratory accredited by A2LA. It indicates traceability to standards provided by NIST (National Institute of Standards and Technology). Dimensions are a 0.14 inch stem diameter, 4½-inch stem length, an extended length of 11 inches, 6-inch folded length, width of ⅝-inch, and 1½-inch-height. Weight is 2⅜ ounces.

Description	Accuracy	Cat. No.	Price
VWR® Traceable® Flip-Stick™ Thermometer	±1°C	15551-002	$29.07
VWR® Traceable® Ultra™ Flip-Stick™ Thermometer	±0.3°C	37000-422	$53.96

VWR® Traceable® Kangaroo™ Thermometer

Traceable® Kangaroo™ Thermometer carries the 42" probe cable in a reel-compartment pouch inside the case of the unit. Perfect carry-around portable thermometer fits in a shirt pocket, or use the built-in stand with a bench foot print of only 4½ square inches.

Intuitive never-read-the-instructions operation allows every user to record identical results. Range is –58.0 to 572°F and –50.0 to 300°C with a resolution of 0.1° (between –19.9 to 199.9°) otherwise 1° and an accuracy of ±1°C (between –30 and 250°C) otherwise ±2°C.

Unit automatically captures and recalls minimum and maximum temperature readings over any time period. High and low alarm may be programmed in 1° increments. Alarm sounds every minute until temperature returns to non-alarm condition. HOLD key freezes the display to record a current reading.

To assure accuracy an individually serial-numbered Traceable® Certificate is provided from an ISO 17025 calibration laboratory accredited by A2LA. It indicates traceability to standards provided by NIST (National Institute of Standards and Technology).

Stainless-steel probe (0.14 inch diameter x 7½ inch length) is resistant to most chemicals. Supplied silver-oxide battery runs continuously for 1 year. Large ¾-inch digits are readable from 20 feet. Compact size is 2½ x 4¾ x ½ inches and weight is 2¾ ounces.

Description	Cat. No.	Price
VWR® Traceable® Kangaroo™ Thermometer	21800-068	$33.82
