

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

MODEL 3245

Precision Inductance Analyzer with microprocessor control.

- ★ Basic accuracy 0.1%.
- ★ Measurement functions L, C, R, D, Q, Z, Rdc, Phase Angle θ and Transformer Ratio.
- ★ 42 Frequencies in the range 20 Hz to 300 KHz.
- ★ Video display incorporating major term, minor term and equivalent circuit representations.
- ★ Programmable drive level.
- ★ Integral DC current bias for inductors, which has programmable levels up to 1A dc.
- ★ Limits (% or absolute), Analog scale and Sorting (Binning) functions are built-in.
- ★ Automatic range selection with manual override.
- ★ 'Soft' Keys for parameter and mode selection.
- ★ Automatic Trim for open and short circuit connections.
- ★ Permanent retention of Trim Values, any programmed Limits and Binning data including test statistics and measurement parameters.
- ★ 4-Terminal connections with active guard.
- ★ Integral keypad.
- ★ User choice from three measurement rates.
- ★ 19″ Rack mountable.
- ★ OPTIONS:
  GPIB (IEEE 488) Parallel I/O port,
  RS232C Serial data output port,
  Standard Handler Interface,
  Analog voltage output interface.

3200 INDUCTANCE ANALYSIS SYSTEM

Comprising a 3245 Precision Inductance Analyzer and up to five 3220 Bias Units, this system can provide full analysis of inductance with as much as 100A of DC flowing.

- ★ Basic accuracy of system 1%
- ★ Measurement functions L, C, R, D, Q, Z, DC resistance, Phase Angle θ and transformer ratio.
- ★ Measurement frequencies in the range 20 Hz to 20 KHz.
- ★ Each 3220 can provide up to 20A dc in 0.1A steps.
- ★ 3245 has video display for major term, minor term and equivalent circuit representation.
- ★ 4-Terminal connections with active guard.
- ★ 19″ rack mountable.
- ★ OPTIONS:
  GPIB (IEEE 488) Parallel I/O port,
  RS232C Serial Data output port,
  Standard Handler Interface,
  Analog voltage output interface.

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
