This is Northline Industrial's Motoman MRC with SK16 Manipulator Robot System.

This complete robot system allows for diagnostic and dynamic load-testing of the component parts that make up the system (see components on the left). This is the only valid system-test that ensures a quality repair on your Motoman MRC amplifier, power supply, teach pendant, and other system components.

Contact your Northline sales representative for all of your Motoman MRC SK16 repair needs.
